Making a video

Simple things to get it right!

You

- Darker clothing around face, plain or simple pattern
- Do hair and make-up (powder out any shine)
- Check hands and nails
- Try out positioning, ensure lighting is natural

Background

- Choose place with light on your face, darker background
- Tidy away any piles of paper, pictures, anything you don't want in video
- You can add books, posters, etc suited to your topic

Before

- Decide on structure of video, even if informal
- Practise a few times, aloud, filming if necessary
- Have any props, books, etc ready to use in video
- Use tripod to steady cam

After

- Check all filming, retake parts if necessary
- Use free, simple Video Editor (in Windows 10)
- Edit out pauses, mistakes and add in text, images
- Upload and share!
